DIVISION MEMORANDUM

No. 151, s. 2024

ALLOCATION & DISTRIBUTION OF INSECTICIDE TREATED SCREENS

To : All Public Elementary School Heads
All Others Concerned

1. In line with the implementation of the Dengue Prevention and Control Program of the province, the Department of Health through the Provincial Health Office will be allocating and distributing **insecticide-treated screens** to different schools in Dipolog City. These screens are vital in preventing the proliferation of dengue-carrying mosquitoes within our school premises.
2. Thus, this Division is hereby requesting all elementary schools to **measure their classroom windows promptly**. To ensure the effectiveness of this initiative, it is imperative that proper measurement must be made for the accurate fitting and installation of the insecticide-treated screens.
3. School heads must assign a responsible individual to oversee the measurement process. Measure the height and width of each window accurately in inches or centimeters. Compile the measurements in a clear and organized manner, specifying the dimensions of each window.
4. Please submit the measurement to Dr. CLEES PAUL Z. TABILIRAN, Dentist II of the School Health and Nutrition Unit not later than **April 2, 2024**. For any questions or clarifications, you may contact 0930-127-1707.
5. The Provincial Health Office (PHO) will be visiting your schools for the distribution, supervision, installation instruction, as well as follow thru visits.
6. Furthermore, activities must be conducted on a regular basis to eliminate possible breeding places of Dengue-carrier mosquitoes.
7. Dengue cases among learners and personnel must be reported to the *School Health & Nutrition Unit* and the *City Health Office*.
8. Immediate dissemination of this Memorandum is highly desired.

MA. LIZA R. TABILON, EdD, CESO V
Schools Division Superintendent
